Your opinions are important!

We want to know what you think of Älmhult Municipality.

We want to offer our residents as high-quality service as possible. To achieve this, we need to know what those living in the municipality think of us. We have therefore asked Statistics Sweden to carry out a survey. You are one of 1,200 inhabitants in the municipality selected by Statistics Sweden using statistical methods to take part in the survey. See this as a chance to say what you think!

The survey

The survey contains a number of questions in which we want to know what you think about different organisations and circumstances. We will never be able to see which individual has given which response. The only thing we receive from Statistics Sweden are statistics and tables from which it is impossible to deduce anything about the respondents.

We hope that you will take the time to answer the questions!

The results will provide us with key data to assist us in our long-term work on improving quality for our residents. By responding, you will make your voice heard and help make Älmhult an even better municipality.

The results will be presented in *Kommuninfo* (Municipal Info), which will be sent by regular mail to everyone in the municipality and posted on our website, www.almhult.se.

Many thanks in advance for taking part!

Eva Ballovarre
*Chair of the Municipal
Executive Board*

Stefan Jönsson
*First Vice-Chair of the Municipal
Executive Board*

Elizabeth Peltola
*Second Vice-Chair of the
Municipal Executive Board*
