

RULES OF CONDUCT AT HAGANÄSSKOLAN 2024-25.

Haganässkolan should be a drug-free, healthy, safe and pleasant workplace where we show each other respect and consideration.

We care about a good working environment for both students and staff.

The Education Act (Chapter 5) regulates disciplinary measures.

Of course, all other legislation that applies in society also applies in schools. If applicable, a report can be made to the police or social services.

The rules of conduct are revised at the start of each academic year after discussion in mentor groups and in the staff's base groups or APT.
